

Birding Links

- www.aleutiangoosefestival.org (This is a new link to showcase the Aleutian Goose Festival that offers participants a dawn spectacular from coastal headlands as more than 30,000 geese rise from their offshore island's rest and fill the sky overhead with voice and wing. This birding, nature and heritage festival provides 80 fieldtrips, workshops, ocean, river and coastal lagoon boat trips. The not-for-profit festival offers birders opportunities to expand their lists and learn more about some of our over 400+ recorded species; all in the setting of the 'big trees', ancient redwoods coast. All workshops and field trips are led by experienced guides.)
